All the students shall attend the Foundation Course.

Our Foundation Classes are designed to provide students with strong academic base, laying the groundwork for future academic success. Our dedicated team of teachers are committed to ensuring that your child receives the best possible education and support throughout the course.

Our curriculum is specifically tailored to help students build a solid foundation including co curricular activities. Our teachers will ensure that your child not only grasps the basic of each subject but also develops a passion for learning.

We understand that the transition from Primary school to Middle school and further High school can be a challenging time for students, which is why we have placed emphasis on strong critical thinking skills and independent learning.

The Foundation Course encourages students to ask questions, think critically, and engage in active learning. We encourage you to stay involved in your child's academic journey and communicate with us.

We thank you for your continued support and co-operation.

Thank you

Regards

Swati Datta
