## Message from Principal

The Importance of Education is an important issue in one's life. It is the key to success in the future and to have many opportunities in our life. Education has many advantages for people. For instance, it illuminates a person's mind and thinking. Having education in an area helps people think, feel, and behave in a way that contributes to their success, and improves not only their personal satisfaction but also their community. In addition, education develops human personality, thoughts, dealing with others and prepares people for life experiences. I believe that everyone is entitled to have education "from cradle to grave". First of all, education gives us the chance of having a good career in our life. We can have plenty of chances to work at any workplace we wish. The highly educated we are the better chance we get. Moreover, education polishes our mind, reinforces our thoughts, and strengthens our character and behaviors toward others.

As educated people, we are considered as a valuable source of knowledge for our society. Having education helps us teach others morals, manners and ethics in our society. In addition, education makes us a role model in society when our people need us to guide them to the right way or when they want to take a decision. Thus, it is an honor for us to serve our community and contribute towards its advancement. In fact, being educated is an advantage to help our people and build a good society. Besides, it is very well-known that having self-confidence is always generated from education. It is a great blessing for us to have self-confidence which leads to many advantages and success in life. Additionally, having self-confidence is typically based on proper education; paving the path for us to success. Accordingly, self-confidence makes us aware of how well we perform a task or a range of actions. In short, being educated is undoubtedly being self-confident and successful in life.

All in all, education is the process of acquiring knowledge and information that lead to a successful future. Education makes us view obstacles as challenges to overcome with no fear; facing new things. It is the main factor behind successful people and the merit of developed countries. Therefore, education is deemed a real success behind any future success.

## Editor's Desk

Dear Readers,

"Writing is like dancing. For every step, you take forward, you take two steps back. But every now and then the stars align and you get to glide".

In agreement with the above quote, We find writing as the most valuable literary expression. The inculcation of passion for creative thinking and writing amongst the students is one of the major objectives set by IEM Public School, Newtown. 'Regale' has been a step towards it and it has served as a great platform to vent out students' passion for writing and encourage original thinking within them.

The magazine aims to provide the detailed annual report of session 2024-25 along with our little tots putting across some amazing pieces of writing and art works displaying their creative thinking and writing skills. The works included in this edition are extremely simple but will surely provide an opportunity to peep into a child's thought process and his or her axiomatic creative thinking. It is actually a lovely experience to see these enthusiastic writers voicing their feeling through stories, poems, through various discussions. The publication of the school magazine included a lot of planning compounded with team work and I was lucky to have a team of motivated students who played a strong role in envisioning the layout of this creative magazine "Regale".

We are thankful to all the blooming writers who have responded to our call and penned their ideas for this edition. I also acknowledge the constant hard work of the teachers who have proved to be as catalysts in mobilizing the students to write their views and efficiently edited the write ups. We would also like to extend our sincere thanks to our honorable principal Mr Chirantan Bhaduri for his constant support and guidance through the entire process of planning and publication of this magazine.

Finally, from the entire team of Regale we wish all the readers a happy reading!

### The Goose that Laid Golden Eggs

A farmer once bought a goose from the market. The next morning, when he went to check on the goose, he saw that she had laid a golden egg! The farmer sold the egg in the market for a lot of money. From that day, every morning the goose laid one golden egg. The farmer kept selling the eggs and soon became very rich. But as the money grew, so did the farmer's greed. One day, he decided that if he cuts the goose's stomach he could get all the golden eggs in one go. This way he would not have to wait for the eggs. The farmer goes and cuts the goose's stomach. But there was nothing there and the goose that laid golden eggs was dead.

Moral: Greed can lead to great loss

### "The first day in my school"

My first day at school was a memorable experience. I still remember that day when I was 6 years old admitted in class-II. My father dropped me inside the school. I was quite nervous but when I entered inside the classroom and met my class teacher Sohini Ma'am, she greeted us warmly. It was really a special day for me. On the very first day I found many of my friends who are very close to me still now. During assembly our principal Sir asked us to introduce ourselves. I came home with a happy heart from my school.

### Stop of the war

When the sweet bird sings a beautiful strain,  
And rain drops on the great plain.  
When the moon with the stars shines so bright,  
In cloudless dark beautiful night.  
Why do we fight and bring this world into destruction  
Bringing terror to all with the devastation  
We all crave for peace  
Whether we are in Malaysia, India or Greece.  
We want the wars to stop, and always stay together.  
We all want the war to stop, and be united forever.

## অরণ্যদেব

চরণপায়ে খাঁড়িয়ে, উঁচু করে মাথা,  
কাউকে যেন খুঁজছে তুমি, চোখে জোয়ার ব্যাধ।  
জোয়ার সন্তানকে ওরা নিয়ে গেছে কেড়ে,  
এ অরণ্যে চোরাশিকার, যত্ন পেছে বেড়ে।  
জমলে থাকে ওরা, জমলেই যায়,  
একবার কোনো গাউর শাবক, সেখানে যদি পায়,  
তুলে নিয়ে যায় ধরে, করতে পাচার,  
আইনত নিষিদ্ধ এই বিকট চোরাশিকার।  
লাগামছাড়া ব্যবসা ওদের, চলেছে নিয়মিত,  
বন ও বন্যপ্রাণ, আজ, হচ্ছে বিচলিত।  
জাতিতে গাউর তুমি, তোলা মাথাটাকে,  
সময় এসেছে এবার, ডাকো দেবতাকে।  
তীক্ষ্ণ ওই শিং দিয়ে প্রতি আক্রমণ করো,  
ভয় পেয়ে না গাউর তুমি, আসছে টারবারো।

### How the Alien ate my Homework

**Sneha Ranjan**

One night I was sleeping, when I heard some noise outside. When I looked out of the window, I saw some aliens. I shouted and called my parents. My parents asked 'How is it possible?' Now you go out of our room and let us sleep. But I said no this is true come with me please. When they came with me the aliens were gone. They shouted at me. They said 'are you thinking that we are mad or what?' You disturbed us while we are sleeping. I said no this is true I have seen that. They didn't shout at me. They didn't say anything and left. Next day when I woke up in the morning, I did not find my homework copy in my shelf. I told my parents that I cannot find my homework. They told me search around or ask the teacher. I did both but I did not find it in my home and the teacher was also not having my copy. When I came home I told my parents the teacher is not having my copy too. They scolded me and sent me in my room. After some time I remembered that my father installed a CCTV camera in front of my room's window. I ran to him and asked to show the footage. We saw something unexpected. The aliens were eating my homework. My parents trusted me for that I actually saw some aliens and they said apologized being rude to me, I said no problem as because you were also unaware of what was trying to explain. Thanks to the camera which saved me.
